

Egg Sucking Leech

Hook: Daiichi 1730
Thread: 3/0 Black
Hackle: Black Saddle

Tail: Black Marabou
Body: Medium Black Chenille
Head: Fluorescent Chenille

1. Tie in thread wrap from head to bend in hook. Take a piece of medium lead and wrap onto shank and secure with several wraps.
2. Tie in Marabou tail.
3. Tie in black saddle hackle, Flashabou and black chenille.
4. Wrap chenille up shank to within one-quarter inch and cut excess.
5. Pull Flashabou along sides and tie in, cut excess.
6. Palmer saddle hackle up shank and tie in, cut excess.
7. Tie in a piece of fluorescent chenille and wrap into an egg shape, cut excess.
8. Whip finish and cement.
