

## MATSON'S SPIDRA

### Recipe

Hook.....Mustad 33903 size 10

Thread.....Mono 3/0 – A size (color according to color of body)

Body.....3/4" Sponge Body (floating)

Color.....Black or white

Legs.....Round Rubber Legs pre cut to 3 5/8"

1. Tie thread onto hook just behind the hook eye and wrap down the shank just past the hump in the hook.
2. Place foam body onto the hook so the front part of the foam body is over the hook eye. Make a couple of wraps with the thread to secure the foam body to the hook.
3. Take one piece of pre cut 3 5/8" round rubber leg material, double it over and tie onto spider body by placing the middle of the rubber legs at the tie in spot in Step #2.
4. Lift up the body and wrap thread forward close to the hook eye.
5. Lay the body flat onto the hook and make several wraps to form the spider's head, whip finish and cement.
6. Use scissors to cut the doubled over ends of the rubber legs.
